

**Episode 3**

On the ever-changing New Tamagotchi Planet...

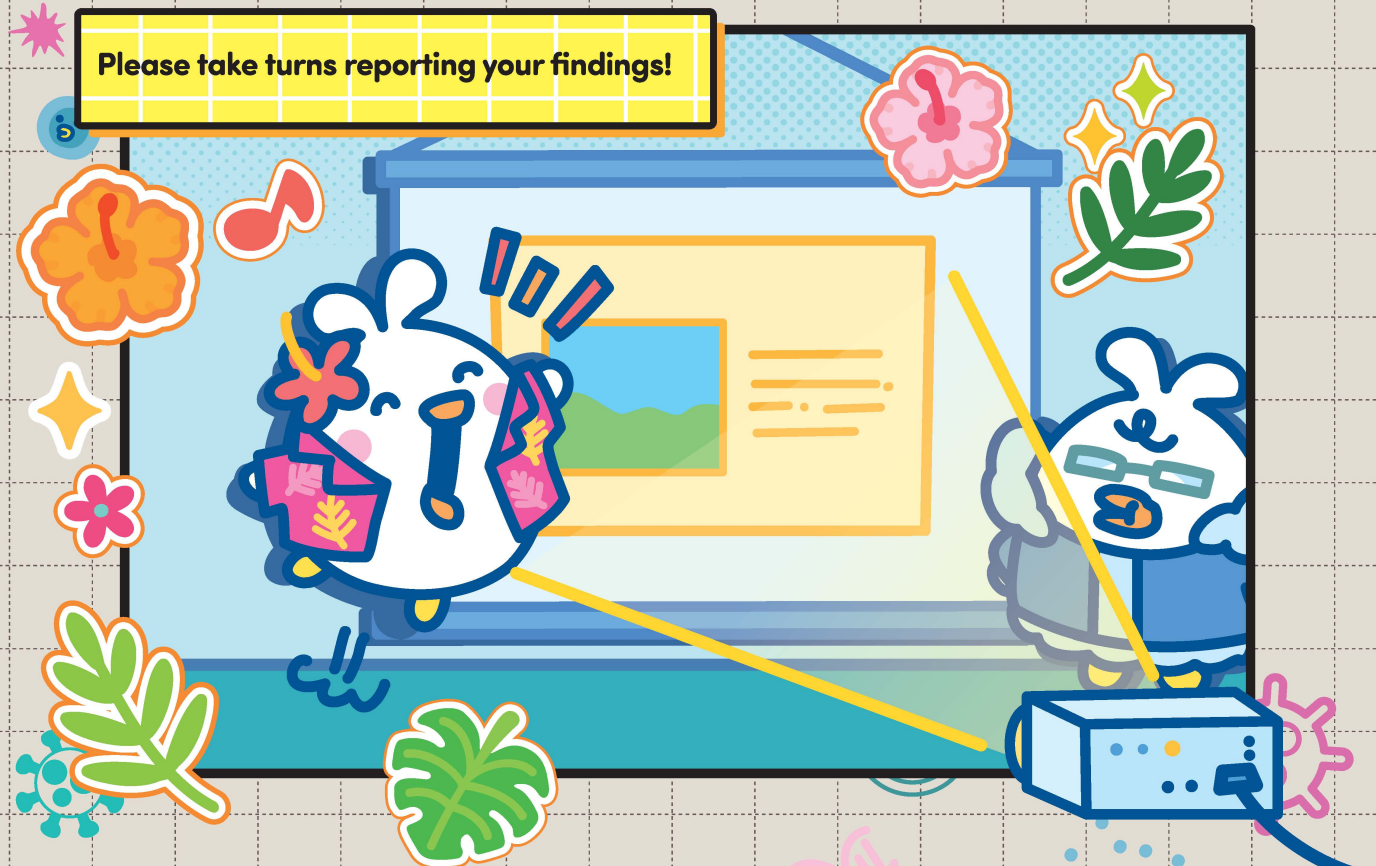

What's this? It seems the Shirotamas have returned from their research mission.

Try to contain your excitement!

Please take turns reporting your findings!

# New Tropical Field Discovered!

A lush and exciting tropical field! What Tamas will we find?

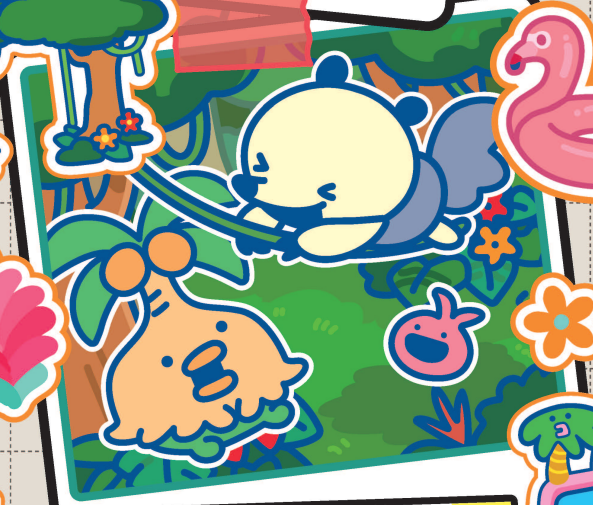

# Tamagotchi Observations

Caring for one another

Talented at break dancing!

Wild and playful!

Sleeping with their eyes open

Dancing around fires... Huh?

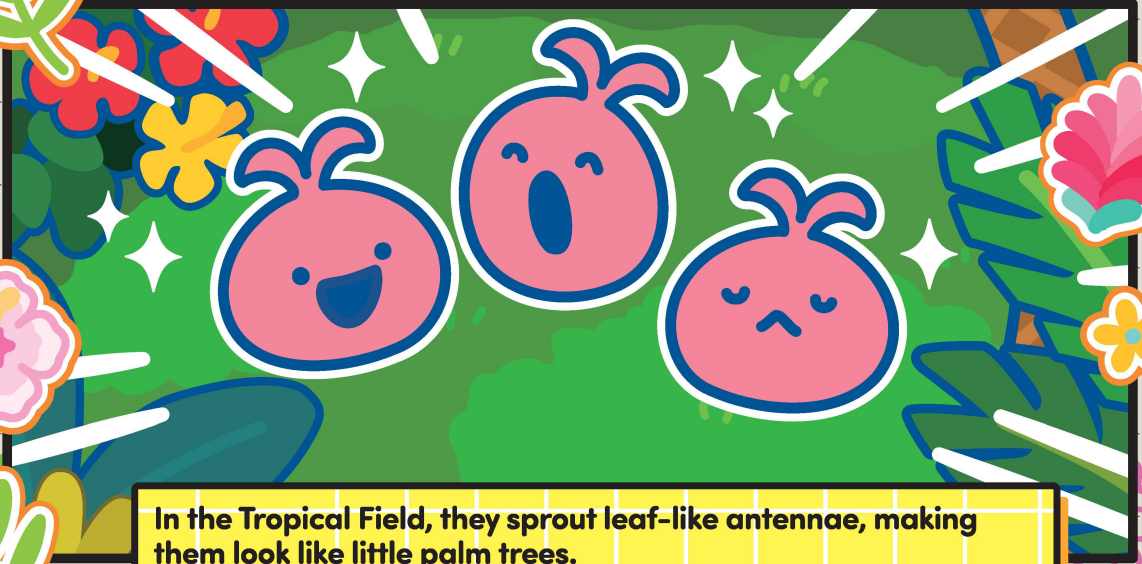

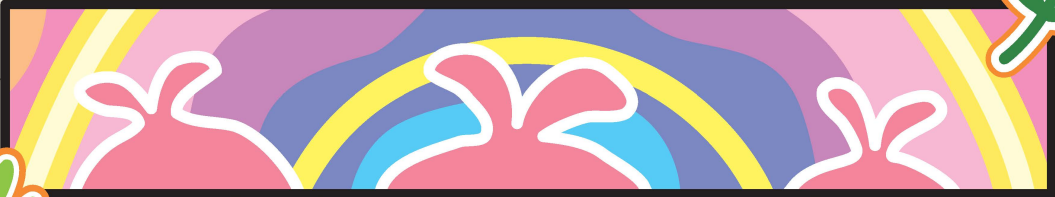

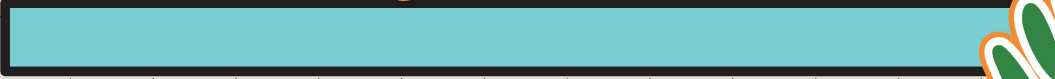

Is that Meowtchi, Mametchi, and Potsunentchi? They look so different from before.

What lively Babymarutchis! It seems the warm fields really energize the Tamas.

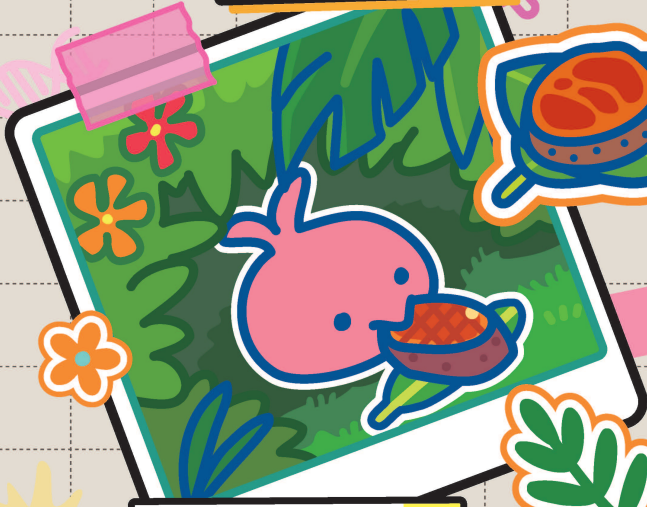

Can't wait to see how they grow!

In the Tropical Field, they sprout leaf-like antennae, making them look like little palm trees.

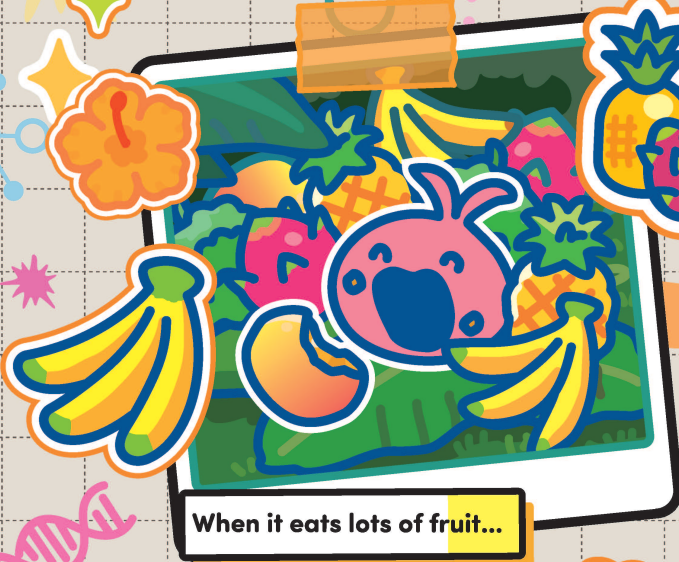

Kid Stage

Young Stage

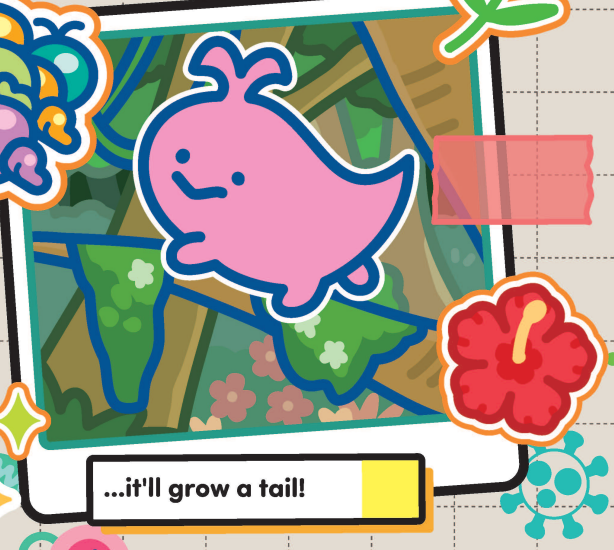

When it eats lots of meat...

...it'll sprout new limbs!

When it eats lots of fruit...

...it'll walk on all fours!

When it eats lots of worms...

...it'll grow a tail!

They've all grown into such colorful Tamas!

We found unique and vibrant Tamas. There may be even more Tamas out there yet to be discovered, so keep up the good work!

# New Ice Field Discovered!

A chilly and glittering ice field! What Tamagotchi will we find here?

# Tamagotchi Observations

The cold doesn't bother them!

Gah! That scares me!

Making something, perhaps?

Everyone's so good at skating!

Irukatchi is another color!  
Still just as naughty as ever!

Check!  
Different fields seem to affect how Tamas grow...

The Babymarutchis are looking awfully cool. It seems like they don't mind the cold.

I wonder how they'll grow...

In the Ice Field, they sprout crystal-like horns. So beautiful and sparkly!

Kid Stage

Young Stage

When it eats lots of meat...

...it'll sprout new limbs!

When it eats lots of seafood...

...it'll grow fins!

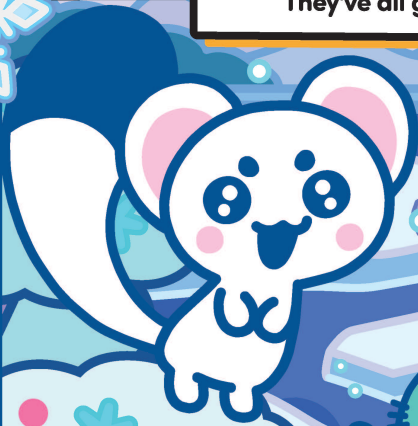

When it eats lots of veggies and fruit...

...it'll walk on all fours!

They've all grown Tamas that love the cold!

We found adorable yet tough Tamas. There may be even more Tamas out there yet to be discovered, so keep up the good work!

Thank you for your report!  
Both new fields are extremely fascinating.

Even more wonderful discoveries await!  
Tune in for the next New Tamagotchi Planet report.
